

Mueller Water Products to Exhibit at American Water Works Association Annual Conference & Exhibition

June 08, 2018

ATLANTA, June 08, 2018 (GLOBE NEWSWIRE) -- Mueller Water Products, Inc. (NYSE:MWA) (the "Company") announced today that the Company will participate in the upcoming American Water Works Association (AWWA) Annual Conference & Exhibition (ACE) June 11 – 14 in Las Vegas.

As a 100+ year member partner of AWWA, the Company will be involved in all aspects of the industry leading event including workshops and seminars, competitions, the industry scholarship program, career fair and the exhibition.

Attendees can visit the Mueller Water Products booth to meet with water industry experts and learn more about the newest product releases including:

- A *Smarter* Fire Hydrant, which provides life-saving fire protection, monitors pressure and detects leaks in the water distribution system, 24 hours a day, 7 days a week.
- The Super Centurion A-403 Fire Hydrant, designed to be installed and maintained by one person.
- A Class 250/300 Resilient Wedge Gate Valve product line with new end design that conforms to the ASME/ANSI dimensional requirements for Class 250/300 valves.

"We're extremely excited to introduce our new *Smarter* Fire Hydrant," said Deron Austin, Senior Director of Marketing at Mueller Water Products. "We've equipped our Jones® wet barrel fire hydrants with a Hydro-Guard® pressure monitoring sensor installed in the dome top and an Echologics® distribution leak detection (DX) node as the nozzle cap. This will give utilities the ability to use existing hydrant assets as a hub for communication and technology deployment. Even if a utility doesn't have a Jones hydrant, any existing wet barrel fire hydrant with a dome top can be converted to detect pressure and leaks in the distribution system."

In addition, attendees can participate in virtual and augmented reality demonstrations to gain hands on experience with the product lines.

The Company will showcase products from all of its water product brands including Mueller®, Mueller Systems®, Echologics®, Hydro Gate®, Hydro-Guard®, Jones®, Milliken®, Pratt®, Singer®, and U.S. Pipe Valve and Hydrant.

About Mueller Water Products

Mueller Water Products, Inc. (NYSE:MWA) is a leading manufacturer and marketer of products and services used in the transmission, distribution and measurement of water in North America. Our broad product and service portfolio includes engineered valves, fire hydrants, metering products and systems, leak detection and pipe condition assessment. We help municipalities increase operational efficiencies, improve customer service and prioritize capital spending, demonstrating why Mueller Water Products is Where Intelligence Meets Infrastructure®.
