

Mueller Water Products Releases Sustainability Report

August 05, 2026

Report Highlights Several Key Achievements

ATLANTA, Aug. 05, 2026 (GLOBE NEWSWIRE) -- Mueller Water Products, Inc. (NYSE: MWA), a leading manufacturer and marketer of products and solutions used in the transmission, distribution and measurement of water, today released its 2025 Sustainability Report, detailing the company's progress in advancing environmental stewardship, operational excellence, responsible business practices, employee well-being and community impact.

The latest report provides data from 2025 and highlights the company's sustainability activities across six key pillars—Health and Safety, Products, Environment, Employees, Communities and Governance. Key highlights from the report include:

- Achieved a Total Recordable Incident Rate of 1.20, the lowest in our history and well below industry averages
- Identified ~9.6 billion gallons of water loss savings generated for clients by EchoShore[®] leak detection since 2020
- Reduced scope 1 and scope 2 greenhouse gas emissions intensity by 13% year-over-year, bringing our total reduction to 35%
- Used ~94% recycled metal to produce our products
- Decreased hazardous waste generation by 64% year-over year
- Reached employee engagement score of 80%, achieving this milestone one year ahead of our target year

"Guided by our long-standing purpose—connecting communities to water, life's most essential resource, with exceptional people, solutions and products—we continue to make meaningful strides across our business, from raising the bar on safety and deepening employee engagement to advancing operational excellence for our customers and stakeholders," said Paul McAndrew, Mueller's President and Chief Executive Officer. "The achievements highlighted in this report reflect the dedication of our team and our continued focus on delivering meaningful value for customers, communities and stakeholders."
